

# Success Highways™

*Drive Achievement Through Resiliency™*

Success Highways™ develops the critical resiliency skills that are scientifically linked to improved middle and high school student engagement, achievement, and graduation rates. Using Success Highways early-warning assessments, educators can identify which students are at risk of academic failure and/or dropping out and why they struggle. With Success Highways curriculum, teachers can assure that all students gain or maintain the ability to succeed in school.

- **Validated resiliency assessments and reports** measure students' aptitude and provide early-warning reports that identify the root cause of academic success or failure.
- **Research-based curricula** provide the pedagogical framework for educators to enhance students' academic resiliency.
- **Professional development** builds school capacity to actively teach resiliency and increase academic achievement.

Early-warning assessments are available in online or print formats.

Academic Risk Index™ Reports identify which students are most at-risk.

## Academic Resiliency Skills

Understanding of education's relevance in achieving life goals

Academic confidence

Connectedness to others

Stress management skills

Balanced sense of well-being

Intrinsic motivation

A complete set of curriculum builds academic resiliency skills.

**GRADE LEVELS:** Middle & high school

**LENGTH:**

- ✓ Assessment: 20-30 minutes (available alone or with curriculum and professional development)
- ✓ Curriculum: up to 27 lessons
- ✓ Professional Development: two-hour virtual or four-hour in-person workshops (ongoing and follow-up sessions available)

**IMPLEMENTATION MODELS:**

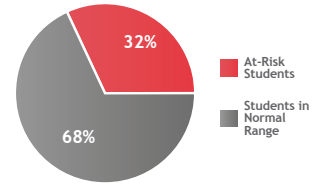

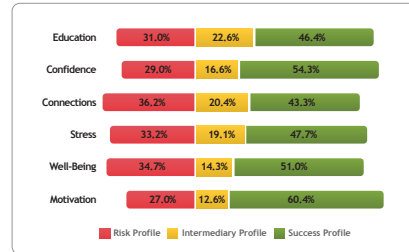

- ✓ Core classroom instruction
- ✓ Middle school or freshman transition/academies
- ✓ Tier I or Tier II social-behavioral interventions
- ✓ Advisory/counseling sessions
- ✓ Extended learning or after-school programs

**FUNDING ALIGNMENT:** Title I, RTTT, i3, High School Graduation Initiative, School Improvement Funds, 21st CCLC, GEAR UP, TRIO, and more

## ASSESSMENTS & REPORTS

20-30 minutes per assessment

- **Revvng Up (pre) and Moving On (post) assessments** in online or print formats capture initial benchmarks and progress via 108 survey questions.
- **Automated scoring tools** calculate performance using scientifically-normed measures.
- **District, school, classroom, and individual results** reveal overall scores and improvement, Academic Risk Index profiles, and demographic subgroup performance.
- **¡Adelante!** and **¡Alístate!**, Spanish versions, make it easy to assess English Learners.

Individual Resiliency Analysis

## CURRICULUM

Up to 27 lessons

- **The curricula's proven methodology** includes opportunities for teacher-led discussions, interactive small-group experiences, self-reflection, and development of personal action plans.
- **My Success Roadmap student and teacher editions** include lessons with multi-disciplinary, standards-aligned lessons covering the six critical areas of resiliency:
  - ✓ Understanding of education's relevance in achieving life goals
  - ✓ Academic confidence
  - ✓ Connectedness to others
  - ✓ Stress management skills
  - ✓ Balanced sense of well-being
  - ✓ Intrinsic motivation
- **Individual resiliency reports** enable students to analyze and reflect on their own resiliency data, a critical step in social emotional growth.
- **Mi Camino al Éxito**, a Spanish version, supports English Learners.
- **My Roadmap to the Future curriculum** is available for students who need additional intervention.

Curriculum in English and Spanish

NEW Additional curriculum to extend student learning

## PROFESSIONAL DEVELOPMENT

Flexible models based on school needs

- **Data consultations** help administrators interpret reports and/or activate interventions.
- **Hands-on sessions** prepare teachers to deliver the assessments and/or curriculum.
- **Follow-up sessions** (on-site or via the Web) amplify knowledge of resiliency and learner engagement strategies.
